

FUEL MAXIMIZER

**Put a Bullet In
High Fuel Prices**

**Improves Fuel Economy
Guaranteed Results**

WHEN YOU HAVE FUEL TO BURN, NOT MONEY

ProOne's Fuel Maximizer is a super-concentrated fuel catalyst which creates more efficient combustion. This produces more energy, significantly reduces fuel consumption and dramatically lowers emissions while at the same time adding lubricity to help reduce wear.

Bottom Line Benefits

- Dramatic increases in fuel economy
- Virtually eliminates opacity
- Reduces ash formation
- Adds lubricity to diesel fuels
- Prevents carbon buildup on engine components
- Improves engine performance
- Increases BTU's
- Cleans fuel system and injectors
- Helps reduce pour point of diesel fuel for easier cold weather starts

How It Works

- Breaks down large fuel particles
- Lowers the temperature at which soot burns
- Accelerates the combustion of hard-to-burn hydrocarbon molecules
- Dramatically reduces ash and unburned carbon

More efficient combustion which produces more energy and less emissions per unit of fuel burned.

TREATMENT RATIO

1:3,000 or approximately 1oz per 25 gallons

Put A Bullet In High Fuel Prices

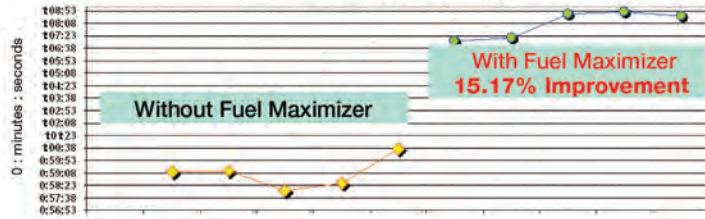

PROVEN TEST RESULTS

J1321 FUEL CONSUMPTION Dramatic improvement in fuel economy

SAE J1321 Fuel Consumption Test Results
Engine Tested Cummins N14 with #2 Sinclair Diesel
Stationary Test 1oz to 23 gallons of fuel

MAKE IT A ONE, TWO SHOT...

For Your Fuel...

ProOne Fuel Maximizer

ProOne Fuel Maximizer is a cost-effective way to combat today's high fuel prices and reduce operating costs. By liberating more of the fuel's chemical energy, it will improve fuel efficiency with less fuel wasted in the form of particulate emissions. Ideal for industrial boilers and diesel engines of all sizes.

ProOne #	SIZE	CASE PACK
32016	16 oz/473ml	6
32001	1 gal/3.785L	4
32005	5 gallon/18.9L pail	1
32055	55 gallon/208L drum	1

For Your Oil...

ProOne Heavy Duty Oil Stabilizer

Highly recommended to complement ProOne Fuel Maximizer is ProOne Heavy Duty Oil Stabilizer. This product features XPL+ Xtreme Pressure Lubrication technology to bond to the metal, reduce friction, and give protection and performance second to none!

BOTTOM LINE BENEFITS:

- Helps stop oil burning & oil leaks
- Protects against wear to extend engine life
- Provides dry start protection
- Increases oil pressure
- Stops thermal breakdown
- Extends oil life by 50% or more!
- Slows blow-by, smoking & oil contamination
- More power with better fuel economy
- Easier starting at all temperatures
- Conditions seals to extend life
- Quiets engines & gear boxes
